Summary

MCA student with hands-on experience in infra automation and CI/CD on AWS and Azure. Deployed microservices on AWS with Blue/Green pipelines for zero downtime releases, and built Azure Data Factory pipelines during a Data Engineering internship. Seeking an Cloud Engineering role to apply Terraform, automation, and CI/CD skills. Available for immediate joining.

Education

JAIN (Deemed-to-be-University), MCA in Cloud Technology – Bengaluru Aug 2025 – present
- Specializing in Cloud Technology with CompTIA Cloud+ certification in progress.
- Completed AWS Academy 60hr Cloud Architecting training covering infra automation.
- SGPA: 8.3/10

Aryabhatta Knowledge University, BCA in CS – Patna June 2021 – June 2024
- Completed CCNA Workshop with Grade 'B' Certification.
- CGPA: 8.2/10

Internships

Data Engineering Intern, J2D Technologies Pvt. Ltd. – Bengaluru June 2026 – July 2026
- Designed and deployed Azure Data Factory (ADF) pipelines for automated data ingestion, applying infrastructure and configuration management principles.
- Authored Python and PySpark scripts to automate large scale data transformations and built a Databricks monitoring dashboard, cutting processing time by 20%.

Projects

FinGuard - Real-Time Credit Card Fraud Detection – Bengaluru June 2026 – July 2026
Live Demo at finguard.isthatabbhi.tech
- Implemented a Bronze-Silver-Gold medallion architecture on Delta Lake, validating outputs at each stage and documenting data quality findings.
- Built a real-time monitoring dashboard with automated alert emails, integrating master records for 1,000+ customers via PostgreSQL batch ingestion.
- Verified that fraud alert emails fire correctly for each Gold table detection event, documenting results and issues found.

Cloud Atlas - Monolith to Microservices Workflow – Bengaluru Apr 2026 – May 2026
- Deployed a monolith into two REST API-based microservices on AWS ECS Fargate, tested and troubleshot through Git-based CI/CD workflows.
- Built two automated CI/CD pipelines using Blue/Green deployments, achieving zero-downtime releases and 5-minute automated rollback.
- Independently scaled the customer microservice from 1 to 3 tasks, validating horizontal scalability while keeping the employee service intact.

Skills

Programming and APIs: Python, SQL, JSON, REST APIs

GenAI: LLM, MCP, Databricks Genie, RAG, Tool calling, AI assisted coding

Cloud Platforms: Azure Data Factory, AWS (EC2, S3, VPC, IAM, ECS, CloudFormation, CodePipeline)

Data Engineering: PySpark, MongoDB, MySQL

DevOps and Infra: Terraform, Docker

Version Control System: Git, GitHub

Certifications

- Earned certifications from industry leaders including AWS Academy (Cloud Architect), AWS (CI/CD), AWS (Cloud Practitioner), Oracle (OCI AI), Databricks (GenAI), Google (Python), Meta (MySQL), Anthropic (MCP), Accenture (AI) & Deloitte (Real-world Readiness)
